Table of Contents

Attribute icons

This page provides an overview about all attribute icons used in c:geo. The attribute icons are used by a cache owner to describe the attributes of a cache and are shown on the cache details page.

You can tap on the attribute section in the cache details to view a textual description instead of the icons.

Most of the icons can be negated if they are strike through like this: (e.g. "Available 24/7") would be negated to "Not available 24/7").

Not all attributes are available for all geocaching services.

Some attributes are grouped into different colors representing different categories of attributes as follows:

Color	Category
Blue	Distance / Duration
Green	Cache location
Grey	Around the cache
Red	Equipment
Brown	Cache type related
Black	Permissions

The following table lists all available attributes and their textual description.
