Table of Contents

Hidden functions

While we try to make every function of c:geo as accessible and self explanatory as possible, there are still some shortcuts and advanced functions, which you might not find right away.

All of these hidden functions are also explained in the relevant section of this user guide, but for those of you who are already familiar with all the main c:geo functions we additionally collected them here:

How to access	Function	Link to user guide section
Long press on stored caches icon in main menu	Will let you directly pick one of you stored lists and open it, instead of first opening the list and then using the top bar to select another list	main_icons
