Pocket Queries

This function allows to view the existing pocket queries on the geocaching server and either show them as a list or import the whole pocket query similar to importing a GPX file.

This menu is only available for geocaching.com premium members as pocket queries are a premium feature.

After selecting this menu function the list of pocket queries will be loaded from the server as follows:

Fix Me! Short explanation, screenshot and refer to lists / search result pages

This page under mainmenu or on root for the topic "Offline caching"?
