c:geo User Guide

Welcome to the c:geo online user guide!

About c:geo

c:geo is an open source, full-featured, always ready-to-go client for geocaching.com (unofficial) and offers basic support for other geocaching platforms (like Opencaching). It does not require a web browser or exports - just [download](#) and start right away.

Getting started

- [First steps with c:geo](#) - First start of the app and authentication of the geocaching services
- [Basic use of c:geo](#) - What is Geocaching and how to find your first geocache with c:geo?

Users manual
