Live kaart

Terwijl het kaartscherm wordt weergegeven, wordt je mobiele apparaat voor het gemak niet automatisch uitgeschakeld. Je moet dit scherm verlaten om terug te keren naar de automatische (getimed) uitschakeling voor energiebesparing. Natuurlijk werkt het handmatig in- en uitschakelen van uw mobiele apparaat nog steeds zoals gewoonlijk.

Bovenste balk

De pictogrammen in de bovenste balk en de inhoud achter de knop worden dynamisch getoond op basis van de apparaatresolutie en de schermoriëntatie. Het is dus mogelijk dat er meer of minder items achter de menuknop worden weergegeven of als pictogrammen in de bovenste balk van uw apparaat worden getoond.

Als een menu-item wordt weergegeven als pictogram, kun je langere tijd op het pictogram drukken om een pop-up te krijgen met de functie ervan.

Icoon	Functie	Omschrijving
<div>Live map 26 caches</div>	Kaart info	Toont de status van de huidige kaart: Live kaart in het geval de kaart live is, Kaart als de live modus uitgeschakeld is of de naam van een lijst. Daarnaast wordt het aantal caches weergegeven, die op de kaart worden getoond.
<div></div>	Voortgang indicator	Er wordt een draaiende voortgang indicator getoond wanneer de live kaart aan het laden is van de geocaching servers en/of van je cachelijst. Het zal verdwijnen als de live kaart klaar is met laden.
<div> </div>	Centreer Positie	Deze knop kan worden gebruikt om de kaart te centreren op je huidige positie. Als de kaart is gecentreerd op jouw positie zal het icoon gevuld zijn.
<div></div>	Kaartbron selectie	Gebruik deze knop om de actieve kaartbron te wijzigen.
<div></div>	Overflow Menu Knop	Door deze knop aan te raken worden alle overige functies getoond, die niet op de bovenste balk van je apparaat passen en zullen als daarvoor in de plaats als een lijst worden getoond. De functies die in de lijst worden getoond worden ook in deze tabel worden beschreven.
<div></div>	Live aan- / uitzetten	Deze functie schakelt het automatisch updaten van de live kaart aan of uit.

Icoon	Functie	Omschrijving
	Alle opslaan	Slaat alle caches op als lijst, die momenteel worden getoond op de kaart. De caches die al opgeslagen zijn zullen tijdens dit proces worden ververst.
	Niet opgeslagen opslaand	Slaat alle caches, die worden getoond op de kaart op, behalve degenen die reeds zijn opgeslagen in een lijst.
	Kaartinstellingen	Dit zal een menu openen met verschillende opties om de kaart aan te passen (bijv. caches verbergen, cirkels laten zien).
	Routing	Deze functie maakt het mogelijk om de switchen tussen routing voorkeuren (bijv. rechte lijn, auto route, fiets route).
	Laat zien als lijst	Dit zal de caches die op de kaart worden getoond presenteren als cache lijst .
	Wis trail geschiedenis	Dit zal de geschiedenis wissen van de positie trail op de kaart.

Map content

The map will use your selected [map type](#) and show a live view of all available caches on the displayed location.

The live map always shows a combination of caches loaded live from all your enabled geocaching services as well as caches stored in your [cache lists](#).

The following table describes the different marker types used on the live map.

The table will only describe the different icon types, but not the different types of Geocaches. Click on the following links to get information about the [Geocache Type Icons in c:geo](#) and [Geocache marker icons in c:geo](#), which are used throughout c:geo.

Icon	Description
	This arrow is representing your current position and orientation on the map .
	Position of a cache from geocaching.com. The arrow points on the coordinates of this cache on the map. The icon frame will contain the corresponding cache type
	Position of a disabled or archived cache from geocaching.com. The arrow points on the coordinates of this cache on the map. The icon frame will contain the corresponding cache type
	Position of a cache from an opencaching platform. The arrow points on the coordinates of this cache on the map. The icon frame will contain the corresponding cache type
	Position of a disabled or archived cache from an opencaching platform. The arrow points on the coordinates of this cache on the map. The icon frame will contain the corresponding cache type
	Position of a cache from another platform than geocaching.com or opencaching (e.g. extremcaching.com). The arrow points on the coordinates of this cache on the map. The icon frame will contain the corresponding cache type

Map popup window

If you click on a cache icon on the live map the following popup windows will be shown above the map, providing additional information for the selected cache:

Top section

This section of the map popup provides several menu options concerning the selected cache.

Icon/Option	Description
	Showing the Cache type icon and the title of the selected cache.
	A short click on this icon will start your default navigation tool to navigate to the selected cache. A long press will start your secondary navigation tool.
	This options turns on/off the direction line/routing between your position and the position of the selected cache. This option is currently only available on the OSM online map and offline maps.
	This option opens a menu list with additional options also described in this table.
Compass	This opens the compass for this cache.
Navigate	This opens the list of all available navigation tools to start one of them for this cache.
Log Visit	This opens the logging window to log the selected cache.
Caches around	This option starts a nearby search around the coordinates of the selected cache and will display the results.
Open in browser	This option opens the cache listing on the geocaching web page using your internet browser.
Remove	This option will delete the cache from your stored lists.
Share Cache	Will share a link to the cache using the built-in Android share options.

Cache information

The middle section of the map popup window shows helpful information about the selected cache. Some of the information might not be shown depending on the loading status of the selected cache (e.g. due to the [livemap#strategy| loading strategy]).

Big Ben

Type Virtual Cache

Distance 3845 mi

Difficulty 1.0 of 5

Terrain 1.0 of 5

Rating 3.1 of 5 (8

Favorite 127 (5%)

Recent logs

Heading	Description
Type	Type of the selected cache.
Geo code	Geo code of the selected cache.
Distance	Distance to the coordinates of the selected cache from your current position.
Difficulty	Difficulty rating of the selected cache shown as decimal value as well as graphical.
Terrain	Terrain rating of the selected cache shown as decimal value as well as graphical.
Rating	Shows the quality rating of this cache from GCVote if this service is enabled in the c:geo settings as decimal value as well as graphical. The value shown in parenthesis is the number of votes given for this cache.
Favorite	The amount of favorite points (geocaching.com) or recommendations (Opencaching platforms) the selected cache has been awarded.
More details	This button will take you to the cache detail page of the selected cache providing the full information for this geocache.
	This button is only available if the cache as a owners hint or a personal note stored. Clicking the button will display the hint and/or personal note at the bottom of the popup window.

List management

This section of the map popup provides several options to manage the storage state of the selected cache.

Icon/Option	Description
Stored in device about 1 hour ago	This field provides information if the selected cache is stored on your cache lists and for how long the cache is stored (i.e. gives you an indication of how up-to-date the shown details are).
	Clicking this button will refresh the cache information by updating it from the geocaching server.
Lists: Stored	In case the selected cache is already stored in your cache lists this field shows you the list(s) it is stored in.
	This button is only shown if the selected cache is not yet stored in your cache lists and will store it. A long press on this icon will store the cache to the last used list, instead of asking for the list.
	If the selected cache is already stored in your cache lists this icon is shown and allows you to modify the list or add the cache to another list.
	If the selected cache is already stored in your cache lists this icon is shown and allows you to delete the cache from your lists.

Hint/Note section

If you clicked the hint button in the cache information section of the popup window, the owners hint and/or your personal note will be shown at the bottom of the popup window. In case of a long text you can scroll this part of

the popup window.

Map settings

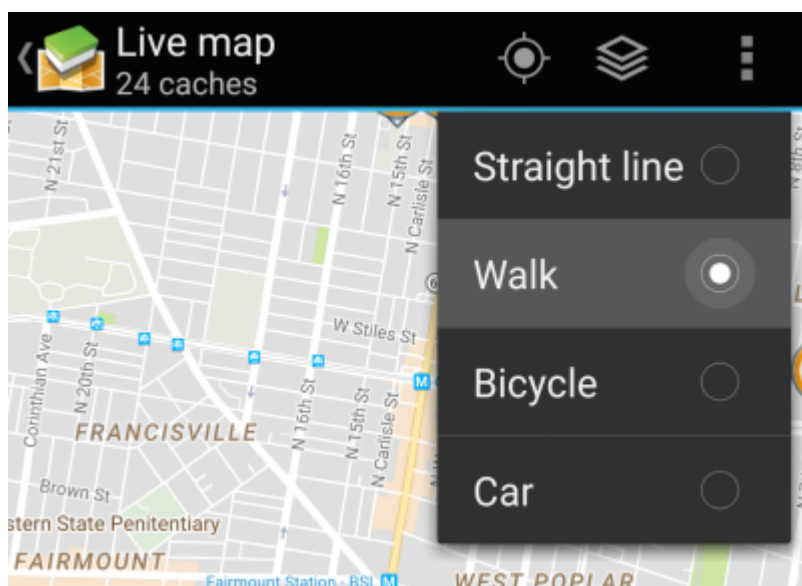

After selecting the menu function Map settings the following option screen will be shown:

Option	Description
Hide own/found caches	If activated your owned and found caches are hidden on the map. This is the same option as also available in c:geo settings and changing it here will change it also permanently in your settings. Please note, that some technical limitation apply for hiding your owned and found caches as explained on the settings page
Hide disabled caches	If activated disabled caches are hidden on the map. This is the same option as also available in c:geo settings and changing it here will change it also permanently in your settings. Please note, that some technical limitation apply for hiding hidden caches as explained on the settings page
Show direction	This will enable/disable the direction line/routing shown between your position and a selected cache.
Show circles	If activated c:geo will show circles with a distance of 1/10 mile (161 meters) around all physical waypoints (i.e. traditional caches, physical stages of a cache, mystery caches with corrected coordinates). This is the minimum distance placed caches need to have on geocaching.com and these circle might be helpful when you are planning to hide a new cache and are looking for a position.
Show trail	With this option you can activate a trail showing your position history (your movement) on the map. This is the same option as also available in c:geo settings and changing it here will change it also permanently in your settings.
Use compact icons	This option will switch from the classic cache icon view to a compact view showing single caches as a colored dot only. The colors represent the cache type according to the color of the classic icon (e.g. Traditional caches are shown as green dot).

Routing

After selecting the menu function **Routing** the following option screen will be shown:

Option	Description
Straight line	This will show a direct line (air distance) between your position and the selected cache.
Walk	This will set the routing app to draw a line following turn-by-turn navigation for pedestrians.
Bicycle	This will set the routing app to draw a line following turn-by-turn navigation for bikers.

Option	Description
Car	This will set the routing app to draw a line following turn-by-turn navigation for cars.
